

Things to keep in mind at launches:

- ◆ First flights of all models should use the lowest power motor for safety (PLEASE read our [Safety Advisory](#)).
- ◆ If using your own launch pad, please make sure it is stable and will not tip over. We recommend use of a weight (brick or jug of water) on the legs. Bring empty jug(s) and fill with water at the park – then empty and take home.
- ◆ If it’s hazy or if there are low clouds, we will have an altitude limit created by nature since we can never launch into clouds or beyond what we can see.
- ◆ As with any launch site, the objective is to launch and **recover** your model rockets safely, so plan ahead and **do not use the maximum power** or a big parachute if your model will go so high that it might float away!
- ◆ If there is a breeze, you will be asked to use do whatever necessary (lower the power/use a smaller parachute/angle the launch rod) to prevent your model floating away.
- ◆ Be sure to select a motor based upon the maximum lift-off weight recommended by the motor manufacturer. **DO NOT** use a longer delay motor just because it was listed in the kit instructions. The kit manufacturer often makes errors in assumptions about the final weight after gluing and painting. Using the correct delay time will avoid the danger of ejecting too close to the ground.
- ◆ Be aware we launch in undeveloped areas that may contain poison-oak, rattlesnakes, Africanized-bees, skunks, coyotes and other potential hazards. You must supervise your children (and be careful yourself) at all times. Because cars come and go throughout the launch, adult supervision of children is required in the parking areas.
 - ◆ **SCOUT OR YOUTH GROUPS MUST CALL US WELL IN ADVANCE TO AVOID SCHEDULING CONFLICTS AND IT'S STRONGLY RECOMMENDED THAT YOUR GROUP LEADER(S) TAKE ONE OF OUR CLASSES!!!**

.....

PLEASE HELP PROMOTE OUR CLUB ACTIVITIES IN A POSITIVE WAY:

- PAY YOUR PARK ENTRY FEES AT THE SANTA FE DAM WITH TWO-DOLLAR BILLS OR GOLDEN DOLLAR COINS. THIS RAISES THE VISIBILITY OF MODEL ROCKET USERS! You may want to use them whenever you spend money to create even greater visibility! Use them at lunch after launches or when shopping for hobby supplies.

YOUR BANK MANAGER CAN ORDER THESE. THE FEDERAL RESERVE HAS SEVERAL HUNDRED MILLION, SO DON'T TAKE "NO" FOR AN ANSWER!

- CLEAN UP DURING & AFTER LAUNCHES: PICK UP WADDING & IGNITER WIRES/PLUGS. We recommend flame resistant cellulose insulation (Cocoon brand) for wadding.

- ◆ AFTER THE SANTA FE DAM LAUNCH WE WILL GO TO THE NEARBY WENDY'S OR JACK-IN-THE-BOX RESTAURANT. Plan to join us for lunch & conversation. Please pay for your lunch with Golden Dollars or Two-Dollar Bills as explained above. They're available at the safety check-in table at all launches.

.....

We can do a special class at your location, just give us a call!
Perfect for Youth groups (Scouts, etc.), School groups, & Birthday parties!

Materials Fee: \$20 to \$25 (depending on rocket) includes one motor for your first launch.
 Call (714) 529-1598 or e-mail mebowitz@earthlink.net to arrange class date & location.

.....

MAILING LIST CULL: Our mailing list has grown to over 300 names! Postage costs have gone up so it’s time to reduce costs by eliminating the people who are no longer interested in a having a printed copy mailed to them (you can download and print at home or work) or who no longer launch. If you want to stay on the list and receive “Snail Mail” about club events, you **MUST** reconfirm by mailing your name, mailing address (& phone number if you wish) to us or e-mail it to mebowitz@earthlink.net. **Don’t delay!**

(If you got this in the mail, you can tear off this strip with your address on it and send/give it to Martin)

THE ROCKET REPORT: 2023

SECTION 430

SPECIAL EVENTS:

NAR Virtual Convention (NARCON 2023) – Fri, Jan 27 - Sun, Jan 29 <https://www.nar.org/narcon-2023/>

City of STEM: Apr. 1, 2023 Los Angeles Historic Park, Downtown LA, CA. All day STEM event! <https://www.cityofstem.org/>

National Sport Launch (NSL 2023) – May 27-29, 2023, Alamosa, CO <https://www.nar.org/>

NAR Annual Meet (NARAM-64) and Rocketry Festival – July 29 - Aug. 1, 2023, Lordsburg, NM <https://www.nar.org/>

Rocket Fever 2023 – TBD Aug, Downey, CA. Hosted by the Columbia Memorial Space Center, 12400 Columbia Way, Downey, CA 90242. www.columbiaspacescience.org SCRA will attend & help. All day event with rocket building, launching! If any club members would like to volunteer at Rocket Fever, please contact us and we will get your name on the volunteer list. We often get free rocket products from Estes for our volunteers, so it is well worth your time to help with this outreach event!!

COMPETITION NEWS:

NAR Competition has been simplified: It is fun for everyone, so read the new info online. We'll hold local NAR competition launches if there are volunteers - contact us via e-mail or post a message on the [SCRA Web Group](#).

For additional information on competition events (rules, scoring), see the NAR website: <http://www.nar.org/contest-flying/>
<http://www.nar.org/wp-content/uploads/2014/03/National-Rocketry-Competition-Explained-Aug-2017.pdf>

\$100,000.00 The American Rocketry Challenge (TARC) for 6th through 12th graders: <http://rocketcontest.org/>
<http://www.nar.org/team-america/> SCRA members are available to mentor teams.
